

Casamood now presents a new display concept through a line of coordinated modular instruments that develop the current collections Neutra, Vetro, Clays, Maiolica, Thin and Link into situations that are different every time.

The concept store, developed to exalt the main features of the collections and reflect the philosophy of the new Casamood brand, differs from traditional displays by permitting a dynamic interaction between the designer and the product.

Mixing color and matter, establishing physical contact with the elements to discover new opportunities and stimulate innovative ideas is the fulcrum around which the project revolves, transmitting excitement with immediacy and simplicity.

Casamood presenta un nuovo concetto espositivo attraverso un insieme di strumenti coordinati e modulari che permettono alle collezioni Neutra, Vetro, Clays, Maiolica, Thin e Link di essere sviluppate in situazioni ogni volta diverse.

Il Concept Store, ideato per valorizzare le caratteristiche principali delle collezioni e riflettere la filosofia del nuovo brand Casamood, si discosta dagli espositori tradizionali permettendo un gioco dinamico e interattivo tra designer e prodotto. Mescolare colore e materia, entrare in contatto fisico con gli elementi per scoprire inedite possibilità e stimolare nuove idee è il fulcro attorno al quale ruota il progetto, capace di trasmettere emozioni con immediatezza e semplicità.

Casamood präsentiert ein neues Ausstellungskonzept mit verschiedenen koordinierten und modularen Instrumenten, mit denen die Kollektionen Neutra, Vetro, Clays, Maiolica, Thin und Link in immer wieder neuen Situationen gestaltet werden können.

Das Concept Store wurde entwickelt, um die Haupteigenschaften der Kollektionen in den Vordergrund zu stellen und die Philosophie der neuen Marke Casamood zu übermitteln und unterscheidet sich von den traditionellen Ausstellern wegen seines dynamischen und interaktiven Spiels zwischen Designer und Produkt. Farbe und Materie mischen, materiell mit den Elementen in Berührung kommen, um noch unbekannte Möglichkeiten aufzustoßern und neue Ideen anzuregen ist der Mittelpunkt, um den sich dieses Projekt dreht, das mit Spontaneität und Schlichtheit Emotionen hervorruft.

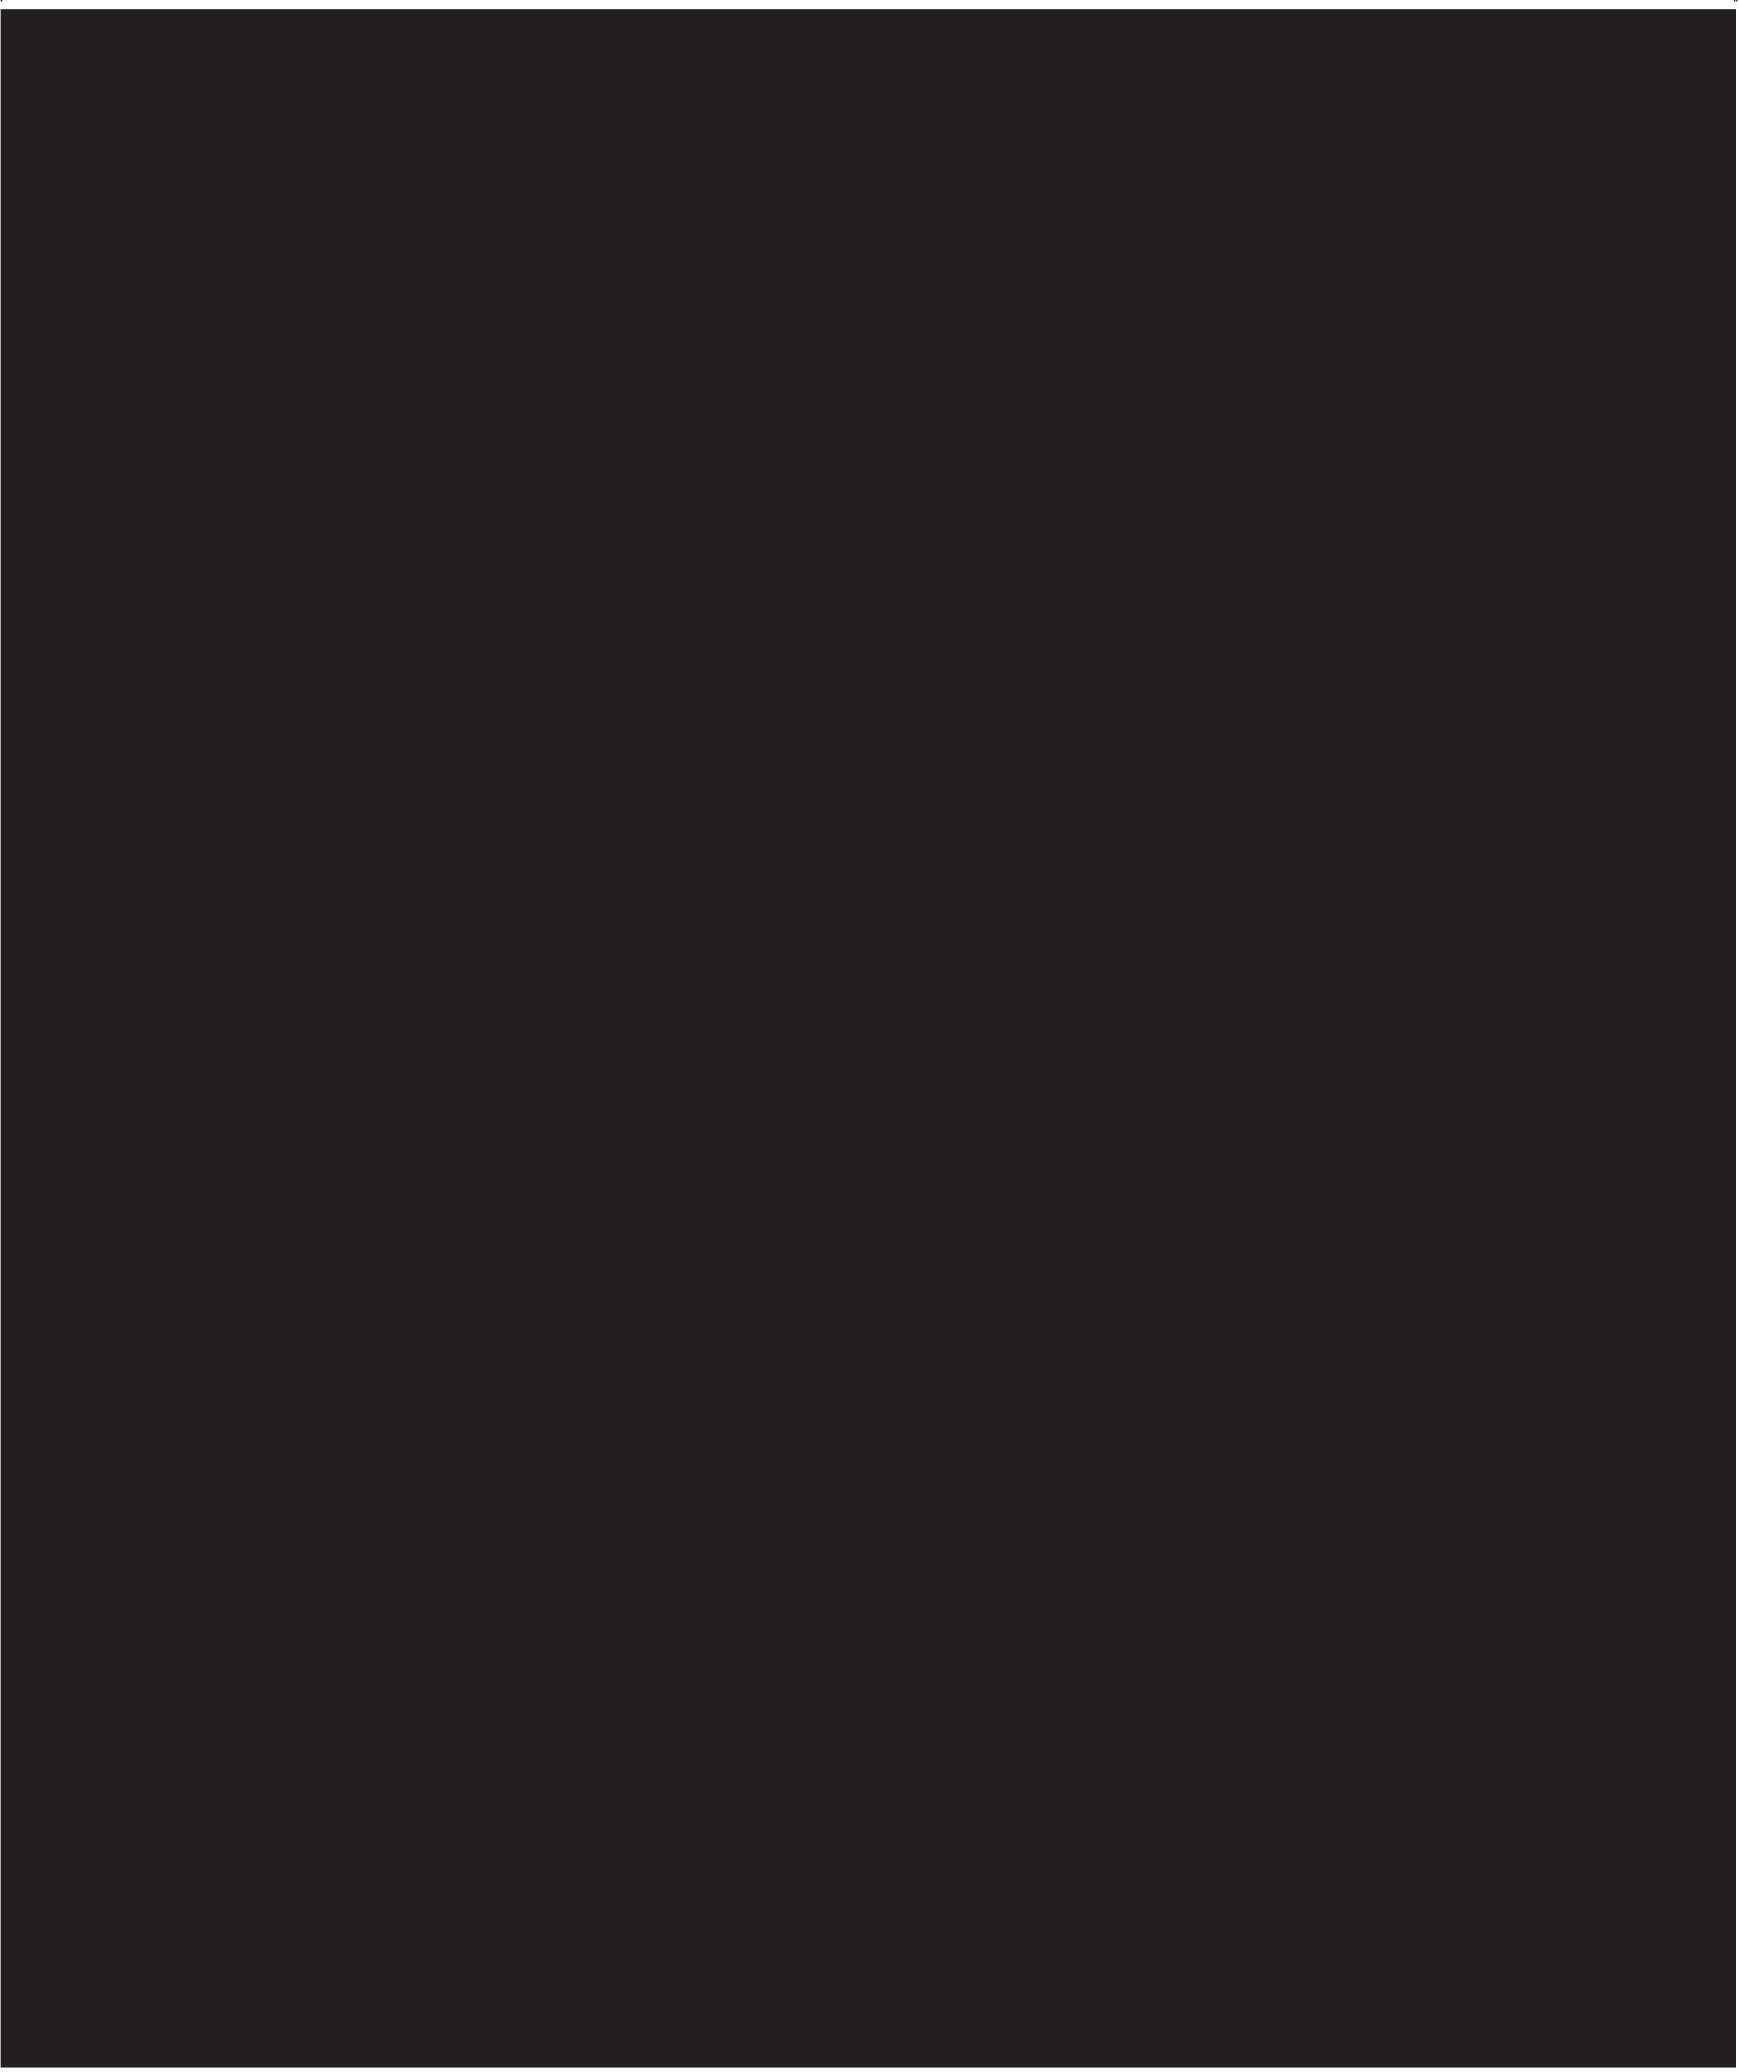

casamood concept.store

Casamood présente une nouvelle idée d'exposition moyennant un ensemble d'outils coordonnés et modulaires, permettant aux collections Neutra, Vetro, Clays, Maiolica, Thin et Link d'être développées dans des situations chaque fois différentes.

Le Concept Store, spécialement conçu pour valoriser les caractéristiques principales des collections et refléter la philosophie de la nouvelle marque Casamood, s'écarte des présentoirs traditionnels, tout en autorisant un jeu dynamique et interactif entre designer et produit. Mélanger couleur et matière, entrer en contact physique avec les éléments pour découvrir des possibilités inédites et stimuler de nouvelles idées, c'est le cœur autour duquel tourne le projet, susceptible de transmettre des émotions avec spontanéité et simplicité.

Casamood presenta un nuevo concepto expositivo mediante un grupo de instrumentos coordinados y modulares con los que las colecciones Neutra, Vetro, Clays, Maiolica, Thin y Link se pueden desarrollar en situaciones que varían de una vez para otra.

El Concept Store, creado con la intención de resaltar las características principales de las colecciones y de reflejar la filosofía de la nueva marca Casamood, se aleja de los expositores tradicionales y permite un juego dinámico e interactivo entre el diseñador y el producto. La mezcla del color y la materia, la creación de un contacto físico con los elementos para descubrir posibilidades inéditas y la estimulación de ideas nuevas: este es el eje central sobre el que gira el proyecto, capaz de transmitir emociones con inmediatez y sencillez.
